24 MAR 1955

MEMORANDUM FOR: Chief, Printing and Reproduction
Division, OL

FROM: Director of Logistics

SUBJECT: Analysis of Air for Toxic Vapors

REFERENCES: (a) Confidential memorandum from CIA
Assistant Safety Officer to Chief, Security
Staff, OL, dated 18 March 1955

(b) Report by the Bureau of Standards on
above subject, with supplementary pamphlets
and memoranda

(c) Manufacturing Chemists' Association
Chemical Safety Data Sheets SD-2, SD-22
and SD-24

1. Your attention is called to reference (a) setting forth the general concurrence of the CIA Assistant Safety Officer with the Bureau of Standards' report and his recommendations concerning the safety control features set forth in the chemical safety data sheets.

2. In view of the above concurrences and the more specific recommendation in paragraph No. 3, reference (a), regarding a procurement method which would indicate the toxic nature of printing and photographic materials before issuance to Agency personnel, it is requested that your Office adopt safety methods compatible with these recommendations in order that such hazards may be entirely eliminated.
